

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

A BIBLIOGRAPHY OF SACHEVERELL.

I. PREFACE.*

WHATEVER has deeply touched the people of England must be worthy of close attention. The affair of Dr. Sacheverell occupied the greater part of a session of parliament, caused indescribable enthusiasm accompanied by popular riots, and in the words of a great contemporary historian, for three weeks "took up all men's thoughts" so that "all other business was at a stand." The great wave of feeling soon wholly passed, but in passing it deluged our libraries with a flood of the worst-printed books that English literature has known. The matter and sentiments of these volumes do not indeed wholly belie their outward garb, yet the questions involved were great; and if the central figure is unworthy of its place, the bystanders none the less saw in Sacheverell the champion of a great religious and a great political cause.

A brief account of the circumstances leading up to and attending the trial will be a necessary key to the bibliography which follows.

* For the arrangement of this pamphlet see p. 8. *J.K.*

Henry Sacheverell was born in 1672 at Marlborough, where he was educated at the grammar school, and whence he was sent in 1689 to Magdalen College, Oxford. At the university he does not seem to have distinguished himself, but for general merit was elected Fellow of his College in 1701, a position which he retained until 1713. There is not wanting, even thus early, evidence of that stubborn grain in the young Sacheverell's nature of which he gave more abundant proof in later years. In 1693 he was brought up before the President and admonished "*propter contumaciam et contemptum erga Decanum Artium*"; and we may remember that it is a man who knew Magdalen soon after the events of 1687, who was under the influence of Dr. Hough, and who enjoyed the close friendship of Joseph Addison, whom we find later on the uncompromising preacher of Non-resistance. While holding the vicarage of Cannock he was appointed by popular election preacher at St. Saviour's, Southwark, in 1705, but attracted no general attention until 1709.

In that year, in an assize sermon at Derby on August 14th, and with still stronger language at St. Paul's Cathedral on Nov. 5th, he delivered opinions of an extreme kind. In three ways he challenged notice: as a High Churchman he declared the Church of England to be in danger from "false brethren," and declaimed against religious tolerance; as a Tory he upheld the principle of Non-resistance without acknowledging any

possible exception to it ; and as a strong partisan he attacked the Lord Treasurer, Godolphin. It requires but a small knowledge of the politics of the time to see how each of these positions involved peculiar difficulty, and placed its defender in thorny ways. In the first he challenged the opposition of Hoadly, as well as of the whole body of Dissenters ; by the second he raised those delicate questions, whether Non-resistance was compatible with " Revolution principles," on what basis the Queen's right to rule was resting, and whether Jacobitism in any form could be entertained by loyal subjects ; while the third could only be successfully carried through on the assumption of a Tory reaction—which had indeed set in, but of which the signs had hitherto been few and equivocal. Round these and similar points the speeches, debates, and pamphlets circled ; and it is no wonder that the Queen herself hesitated in her line of action. The House of Commons, however, showed no such vacillation : they boldly did everything that was calculated to defeat their own ends. An impeachment of Dr. Sacheverell before the House of Lords was voted ; and after much delay, during which the Church and the Tories were gathering round their champion, the trial began in Westminster Hall, on Feb. 27th, 1710. The Managers for the House of Commons opened the impeachment, Sacheverell's counsel followed, and he himself delivered a speech so different from his usual style, and so skilful and re-

fined, that it was generally attributed at the time to Atterbury. When the Managers had replied, the debate was transferred to the House of Lords; and in the end, on March 23rd, 1710, Sacheverell was declared guilty by the Upper House by sixty-nine votes to fifty-two. The sentence suspended him from preaching for three years, and ordered the St. Paul's sermon to be burnt; but its lenity was only too evident, and it was accepted throughout the country as a victory instead of a defeat. Not only was Sacheverell fêted wherever he moved, but addresses poured in from all parts of the country to the Queen in support of his principles. In point of fact it was the affair of Dr. Sacheverell which turned out the Whig Ministry and brought in the Tories under Harley in Nov. 1710. In 1713, when the term of three years had expired, the valuable living of St. Andrew's, Holborn, was given to the Doctor, who thenceforward disappears from public notice. He died in 1724 at Highgate. "He stands alone," says Burton, "among the objects of great popular contests, as one who has had no historical vindicator": on the other hand, the merciless scrutiny to which his personal affairs were subjected during the agitation, even by his relatives, disclosed nothing that deserved public condemnation, much less the unmeasured abuse which he received. The fact is that he "had greatness thrust upon him" by the force of circumstances which he could do little himself to control. Burton finds the one key to almost all his

actions in an overweening vanity ; but the more general opinion seems also to be the truer—that with a fair show of learning, an engaging presence, and a popular way of expressing and enforcing his principles, he combined no small amount of temerity, self-conceit and bluster. A good education did not furnish him with taste or judgment, nor did his experience teach him humility. Had his lot been cast in ordinary paths, he would have been found by posterity, if found at all, to be a popular divine, at his best in the pulpit ; but one who excited more interest in his inferiors than his superiors.

All the historians of the reign of Queen Anne dwell upon the trial. Boyer is exceptionally full ; Burnet also gives a long but hardly disinterested account ; but as both were contemporaries, the modern reader may prefer the detailed critique of Burton or the shorter one of Stanhope. The facts of Sacheverell's life are best gathered from Dr. J. R. Bloxam's *Register of...St. Mary Magdalen College in...Oxford*, vol. iii, pp. 98—110 (Oxf., 1879), where many interesting extracts are printed from Hearne's MS. diaries. To Dr. Bloxam's exertions the College library owes a collection of over a hundred pamphlets connected with the trial.

I cannot refrain from appending two extracts, one from Miss Strickland's *Life of Queen Anne* as quoted by Dr. Bloxam, and one from Burton's *Reign of Queen Anne* (vol. ii., p. 283, *Edinb.* 1880). "Perhaps the driest and most intolerable passage in

all political domestic history is that called the 'Affair of Dr. Sacheverell.' All old libraries in country halls are provided, among other literary nuisances pertaining to the last century, with two or three duplicate copies of duskily bound tomes bearing the above title: the paper, the vilest yellow stained, wire-wove; the print and orthographical arrangement ugly enough to be in unison with the dulness of the inexplicable contents. No person can open these books without perpetrating a succession of yawns; no person, excepting for the purpose of professional information, ever endured the reading of two pages of the narrative."—*Strickland*. "But it would be wrong to leave this literary heap behind without noting that the student of history and the British Constitution will find in it matter of value."—*Burton*.

- IV. Pieces relating to the facts of the Trial (54—115).
- V. Pieces relating to the Trial from the point of view of the larger issues involved.
 - (a) Historical precedents (116—126).

 - (c) Miscellaneous (139—179).

VI. Humorous and satirical pieces (180—219).

VII. Miscellanea (220—226).

VIII. Indexes.

The key to the arrangement of each section is chronological, all the issues of a particular year coming together. Within each year the order is alphabetical according to the first word not an article: but works with the author's name precede anonymous ones. Successive editions immediately follow the notice of the first issue, and answers to a work follow the original piece.

The indexes will I hope set right any difficulties due to the above arrangement. When a pamphlet is *not* known to be in the British Museum or the Bodleian, and is not in my own collection, the authority for it is given. I trust that readers of these pages who possess volumes of Sacheverell pamphlets will kindly look them over and help to complete the list here given.*
